

What do I need to switch to Go Power?

We've made the switching process as easy as possible for you, but before you start your journey to better savings you'll need to have a few items at hand:

1. Your most recent electricity or gas bill

To switch electricity you'll need your MPRN from your latest electricity bill and to switch gas, your SMP from your latest gas bill.

2. Your current meter reading:

Your electricity meter reading is a 5 digit number found on your electricity meter.

Your gas meter reading from your gas meter is needed when switching gas. The meter is read from left to right.

3. Your bank details

Your bank details are needed to set up your direct debit.

If you have any further information regarding the switching process, please email us at: support@gopower.energy or call us on 028 8676 0600
